The Manager is licensed in Ireland and regulated by the Central Bank of Ireland (CBI).  
Date of production of the KID: 14/02/2025

What is this product?

Type	The product (hereinafter also referred to as the "Fund") is a sub-fund of the ICAV. The ICAV has been established as a UCITS fund in Ireland.
Term	The Fund has no maturity date and is established for an indefinite term. A Business Day immediately following a holiday in the US shall not be a Dealing Day. All other Business Days will be Dealing Days for the Fund.
Objectives	The Fund is actively managed. The investment objective of the Fund is to seek high current income and capital appreciation consistent with the preservation of capital. The Fund will invest at least 80% of its net assets in a diversified portfolio of Fixed Income Securities primarily issued from issuers in developed markets such as US, Canada and Europe. Such Fixed Income Securities will include bonds and securities that are rated below Investment Grade and unrated securities subject to the requirements of the Regulations. The Investment Manager adopts a 'bottom up' selection process which focuses on business models to limit both credit and interest rate risk. This assessment may include quantitative (net debt/EBITDA, liquidity ratios, interest coverage) and qualitative (competitor analysis, management team) measures. The issuers are well diversified by sector and are primarily located in developed markets. These sectors include, but are not limited to, healthcare, material, industrials, energy, consumer discretionary, consumer staples, information technology, communication services, utilities and key developed markets include USA, Canada and Europe. The Fund may perform derivative trades in order to hedge positions or to increase its returns. No reference is made to a benchmark in managing the Fund. This Share Class is accumulating in nature and there is currently no distribution of dividend income. The Fund's assets are held with its depository, which is J.P. Morgan SE - Dublin Branch. The Prospectus and current reports, the current share prices and further information about the Fund or further Share Classes of the Fund can be found free of charge in English language on <a href="https://fondsfinder.universal-investment.com">https://fondsfinder.universal-investment.com</a> .
Intended retail investor	The Fund is designed for investors who already have a certain level of experience with financial markets. The investor must be prepared and able to accept fluctuations in the value of the Shares and the potential of a significant loss of capital. The assessment of the Manager should not be considered investment advice; instead, it is intended to provide the investor with an initial point of reference for determining whether the Fund is appropriate for their investing experience, risk tolerance and investment horizon.

# What are the risks and what could I get in return?

## Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 2 Years

Example Investment: 10,000 EUR

		If you exit after 1 year	If you exit after 2 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	7,954 EUR	9,190 EUR
	Average return each year	-20.46%	-4.14%
Unfavourable	What you might get back after costs	9,350 EUR	9,951 EUR
	Average return each year	-6.50%	-0.25%
Moderate	What you might get back after costs	10,435 EUR	10,959 EUR
	Average return each year	4.35%	4.68%
Favourable	What you might get back after costs	12,456 EUR	14,870 EUR
	Average return each year	24.56%	21.94%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario was based on an investment between 03/2018 and 03/2020. The moderate scenario was based on an investment between 05/2019 and 05/2021. The favourable scenario was based on an investment between 12/2014 and 12/2016.

## What happens if the Manager is unable to pay out?

The failure of the Manager will have no direct impact on your payment, if the Manager becomes insolvent the Fund does not become part of the insolvency assets of the Manager, but rather remains separate.

## What are the costs?

The person selling you this product or advising you on it may charge you other costs. If this is the case, this person will inform you of these costs (which shall also be provided free of charge in paper form) and explain how these costs will affect your investment.

### Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 2 years
Total costs	103 EUR	211 EUR
Annual cost impact (*)	1.0%	1.0%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.7% before costs and 4.7% after costs.

### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.0% (currently 0.0%) of the amount you pay when acquiring this investment. The amount indicated is the maximum rate. This may be lower in individual cases. You can request the amount actually applicable for you from the distributor of the shares in the Fund.	Up to 0 EUR
Exit costs	0.0% (currently 0.0%) of your investment before it is paid out to you. The amount indicated is the maximum rate. This may be lower in individual cases. You can request the amount actually applicable for you from the distributor of the shares in the Fund.	Up to 0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.9% of the value of your investment per year. The indicated costs were based upon the cost incurred during the last fiscal year of the Fund, which ended on 31/12/2024. The ongoing costs can fluctuate from year to year.	92 EUR
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	11 EUR
Incidental costs taken under specific conditions		
Performance related fees	Performance Fee: None	0 EUR

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. Due to legal requirements, we are obliged to show the percentage figures with only one decimal place.

## How long should I hold it and can I take my money out early?

### Recommended holding period: 2 Years

Recommendation: The Fund may not be suitable for investors who plan to withdraw their money within 2 years of their initial investment. Investors may withdraw their investment from the Fund during the recommended holding period.

### How can I complain?

If you have any questions or complaints, please contact your investment advisor first. Complaints can also be submitted in writing to Universal Investment Ireland, Kilmore House, Spencer Dock, Dublin 1, D01 YE64, Ireland or via e-mail to: [Mgt.UII@universal-investment.com](mailto:Mgt.UII@universal-investment.com). Further details on the complaint process are available at the following website: <https://www.universal-investment.com/en/Corporate/Compliance/Ireland/>
