This product is approved in Luxembourg.

The manufacturer, who is also the OGAW-Managementcompany of the product, is licensed in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Date of production of the KID: 30/04/2025

## What is this product?

Type	The product is an investment fund in the form of a fonds commun de placement (FCP) pursuant to Part I of the Luxembourg Law of 17 December 2010 on undertakings for collective investment ("Law of 2010") and pursuant to Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities.
Term	The term of the Fund is unlimited, so there is no maturity date. The Fund may be dissolved and liquidated under the specific circumstances set out in the Management Regulations.
Objectives	The Fund is actively managed. The fund's investment objective is to achieve an appropriate and steady performance. To achieve this, at least 51% of Fund assets will be invested in global equities. Investments are made primarily in standard stocks and in high-growth small-caps and mid-caps. The Fund endeavours to outperform its benchmark, MSCI® World (Ticker MSDEWIN). However, the Fund does not aim to replicate the performance of the benchmark index. The Fund aims to achieve long-term capital appreciation, while taking into account its sustainable investment objective. The sustainable investment objective is to make a positive contribution to solving global challenge (so called positive impact). The focus here is on four global challenges or fields of action that have been defined by the Berenberg Wealth and Asset Management ESG Office in cooperation with the Berenberg Wealth and Asset Management portfolio management units. In accordance with Article 41(1)(e) of the Law of 17 December 2010, no more than 10% of net Fund assets may be invested in target funds (UCITS and other UCIs). The Fund invests maximum 10% of net Fund assets in bonds and bond-like securities. Maximum 10% of the net Fund assets may be invested in subordinated bonds (contingent convertible bonds only). No more than 10% of net fund assets may be invested in 1:1 certificates on stocks and indices. No more than 5% of net Fund assets may be invested in real estate investment trusts (REITs). Financial derivative instruments (FDIs) traded on a regulated market or over the counter (OTC) may be used for investment and hedging purposes. In the process of selecting suitable investments, the fund aims to make sustainable investments and is classified as a financial product within the meaning of Article 9 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. Further information on sustainable investment objectives for this fund can be found on our website at: <a href="https://fondsfinder.universal-investment.com/api/v1/GB/LU1878855821/document/SRD/EN">https://fondsfinder.universal-investment.com/api/v1/GB/LU1878855821/document/SRD/EN</a> . The benchmark for the fund is: 100% MSCI World NR (EUR). The benchmark index for the fund is determined by the Manufacturer and may be changed if necessary. The fund does not aim to reproduce the benchmark. The portfolio manager may invest at their own discretion in securities or industries not included in the benchmark in order to capitalise on specific investment opportunities. The investment strategy will restrict the extent to which the portfolio holdings may deviate from the benchmark. This deviation may be material. Returns from the Fund (where applicable, of this unit class) will be distributed; interim distributions are possible. Depositary of the fund is BNP Paribas (ehemals BNP Paribas Securities Services) Luxembourg Branch. The prospectus and current reports, the current unit prices and further information about the Fund or further unit classes of the Fund can be found free of charge in German language on our homepage <a href="https://fondsfinder.universal-investment.com">https://fondsfinder.universal-investment.com</a> .
Intended retail investor	The fund is designed for investors who are capable of assessing the risks and value of the investment. The investor must be prepared and able to accept significant fluctuations in the value of the shares, and the potential of a significant loss of capital. The assessment of the Manufacturer should not be considered investment advice; instead, it is intended to provide the investor with an initial point of reference for determining whether the fund is appropriate for their investing experience, risk tolerance and investment horizon.

# What are the risks and what could I get in return?

## Risk indicator

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

**Recommended holding period: 5 Years**

**Example Investment: 10,000 EUR**

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
	If you exit after 1 year	If you exit after 5 years
<b>Stress</b>	What you might get back after costs	4,767 EUR
	Average return each year	-52.33%
<b>Unfavourable</b>	What you might get back after costs	6,782 EUR
	Average return each year	-32.18%
<b>Moderate</b>	What you might get back after costs	10,987 EUR
	Average return each year	9.87%
<b>Favourable</b>	What you might get back after costs	15,361 EUR
	Average return each year	53.61%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario was based on an investment between 08/2021 and 03/2025. The moderate scenario was based on an investment between 01/2019 and 01/2024. The favourable scenario was based on an investment between 08/2016 and 08/2021.

## What happens if the Manufacturer is unable to pay out?

The failure of the Manufacturer will have no direct impact on your payment, since statutory regulations required that, if the Manufacturer becomes insolvent, the fund does not become part of the insolvency assets, but rather remains separate.

## What are the costs?

The person selling you this product or advising you on it may charge you other costs. If this is the case, this person will inform you of these costs (also free of charge in paper form) and explain how these costs will affect your investment.

### Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	181 EUR	1,069 EUR
<b>Annual cost impact (*)</b>	1.8%	1.8%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.1% before costs and 8.3% after costs.

### Composition of costs

One-off costs upon entry or exit	If you exit after 1 year
<b>Entry costs</b>	0.0% (currently 0.0%) of the amount you pay when acquiring this investment. The amount indicated is the maximum rate. This may be lower in individual cases. You can request the amount actually applicable for you from the distributor of the shares in the Fund.
<b>Exit costs</b>	0.0% of your investment before it is paid out to you. The amount indicated is the maximum rate. This may be lower in individual cases. You can request the amount actually applicable for you from the distributor of the shares in the Fund.
<b>Ongoing costs taken each year</b>	
<b>Management fees and other administrative or operating costs</b>	1.1% of the value of your investment per year. The indicated costs were incurred during the last fiscal year of the fund, which ended on 31/12/2024. The ongoing costs can fluctuate from year to year.
<b>Transaction costs</b>	0.7% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.

### Incidental costs taken under specific conditions

<b>Performance related fees</b>	Performance fee: none	0 EUR
---------------------------------	-----------------------	-------

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. Due to legal requirements, we are obliged to show the percentage figures with only one decimal place.

## How long should I hold it and can I take my money out early?

### Recommended holding period: 5 Years

This product does not have a mandatory holding period. The recommended holding period is based either on historical data or the Manufacturer's estimate regarding the average fluctuation in the unit value, which is to be expected for this product. If you, as an investor, have a shorter investment horizon, the risk is on average higher that at the time of redemption, the unit value of the product will be lower than when you invested. There are no redemption costs or fees. However, you may return the product in accordance with the procedures indicated in the Sales Prospectus.

### How can I complain?

If you have any questions or complaints about the product, the manufacturer or customer service, please contact your customer service representative first. Complaints can also be submitted in writing to Universal Investment Luxembourg S.A., Complaint Management, 15, rue de Flaxweiler, L-6776 Grevenmacher Luxembourg or via e-mail to: [Beschwerdemanagement-ui-lux@universal-investment.com](mailto:Beschwerdemanagement-ui-lux@universal-investment.com). Further details on the complaint process are available at the following website: [https://www.universal-investment.com/-/media/Compliance/PDF/Luxembourg-English/Complaint-Handling-Policy UIL\\_EN\\_02-2022.pdf](https://www.universal-investment.com/-/media/Compliance/PDF/Luxembourg-English/Complaint-Handling-Policy UIL_EN_02-2022.pdf)

### Other relevant information

Information on past performance from the last 6 years as well as a calculation of past performance scenarios which is updated monthly are available on our homepage at <https://fondsfinder.universal-investment.com>. Please note that this document is only a summary of the information relevant to you. The fund is subject to the laws and regulations of the Grand Duchy of Luxembourg. This may influence the manner in which you are taxed in respect to your income from the fund.
