What is this product?

Type	The product is an investment fund in the form of a fonds commun de placement (FCP) pursuant to Part I of the Luxembourg Law of 17 December 2010 on undertakings for collective investment ("Law of 2010") and pursuant to Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities.
Term	The term of the Fund is unlimited, so there is no maturity date. The Fund may be dissolved and liquidated under the specific circumstances set out in the Management Regulations.
Objectives	The Fund is actively managed. The investment objective of the Fund is to achieve the greatest possible capital appreciation. In order to achieve this, the Fund invests primarily in equities and securities of a equity character. The Funds assets are primarily invested in standard securities and high-growth, small and medium-sized securities, which are mainly issued by companies that have their head office or their main stock exchange or are predominantly active in emerging Asia. The Fund seeks to outperform its benchmark MSCI AC Asia ex Japan. In order to ensure this investment strategy, the Management Company reserves the right to temporarily suspend the issue of unit certificates if the fund volume reaches a significant size. In the process of selecting suitable investments, the fund considers environmental and/or social characteristics and is classified as a financial product within the meaning of Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. Further information on sustainable investment objectives for this fund can be found on our website at: https://fondsfinder.universal-investment.com/api/v1/GB/LU2491196015/document/SRD/EN . The Fund may perform derivative trades in order to hedge positions or to increase its returns. The benchmark for the fund is: 100% MSCI AC Asia ex Japan PR (EUR). The benchmark index for the fund is determined by the Manufacturer and may be changed if necessary. The fund does not aim to reproduce the benchmark. The portfolio manager may invest at their own discretion in securities or industries not included in the benchmark in order to capitalise on specific investment opportunities. The investment strategy will restrict the extent to which the portfolio holdings may deviate from the benchmark. This deviation may be material. Income shall remain in the fund (or: in this Share Class) and shall increase the value of the Shares. Depositary of the fund is BNP Paribas (ehemals BNP Paribas Securities Services) Luxembourg Branch. The prospectus and current reports, the current unit prices and further information about the Fund or further unit classes of the Fund can be found free of charge in German language on our homepage https://fondsfinder.universal-investment.com .
Intended retail investor	The fund is designed for investors who are capable of assessing the risks and value of the investment. The investor must be prepared and able to accept significant fluctuations in the value of the shares, and the potential of a significant loss of capital. The assessment of the Manufacturer should not be considered investment advice; instead, it is intended to provide the investor with an initial point of reference for determining whether the fund is appropriate for their investing experience, risk tolerance and investment horizon.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund and a suitable benchmark over the last 12 years. Markets could develop very differently in the future.

Recommended holding period: 7 Years

Example Investment: 10,000 EUR

		If you exit after 1 year	If you exit after 7 years
Minimum		There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	4,040 EUR	2,790 EUR
	Average return each year	-59.61%	-16.67%
Unfavourable	What you might get back after costs	7,680 EUR	13,050 EUR
	Average return each year	-23.23%	3.88%
Moderate	What you might get back after costs	10,290 EUR	14,830 EUR
	Average return each year	2.87%	5.79%
Favourable	What you might get back after costs	14,110 EUR	20,190 EUR
	Average return each year	41.07%	10.56%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario was based on an investment between 04/2018 and 04/2025. The moderate scenario was based on an investment between 06/2018 and 06/2025. The favourable scenario was based on an investment between 02/2019 and 02/2026.

What happens if the Manufacturer is unable to pay out?

The failure of the Manufacturer will have no direct impact on your payment, since statutory regulations required that, if the Manufacturer becomes insolvent, the fund does not become part of the insolvency assets, but rather remains separate.

What are the costs?

The person selling you this product or advising you on it may charge you other costs. If this is the case, this person will inform you of these costs (also free of charge in paper form) and explain how these costs will affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 7 years
Total costs	695 EUR	2,163 EUR
Annual cost impact (*)	6.9%	2.8%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.6% before costs and 5.8% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.0% (currently 5.0%) of the amount you pay when acquiring this investment. The amount indicated is the maximum rate. This may be lower in individual cases. You can request the amount actually applicable for you from the distributor of the shares in the Fund.	Up to 500 EUR
Exit costs	0.0% of your investment before it is paid out to you. The amount indicated is the maximum rate. This may be lower in individual cases. You can request the amount actually applicable for you from the distributor of the shares in the Fund.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.2% of the value of your investment per year. The indicated costs were incurred during the last fiscal year of the fund, which ended on 31/12/2025. The ongoing costs can fluctuate from year to year.	115 EUR
Transaction costs	0.4% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	35 EUR
Incidental costs taken under specific conditions		
Performance related fees	Performance fees: Up to 10% of the return generated by the Fund during the accounting period above the reference value (MSCI All Countries Asia Excluding Japan Net Return (EUR) multiplied by the average value of all net asset values during the accounting period). The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last five years.	45 EUR

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. Due to legal requirements, we are obliged to show the percentage figures with only one decimal place.

How long should I hold it and can I take my money out early?

Recommended holding period: 7 Years

This product does not have a mandatory holding period. The recommended holding period is based either on historical data or the Manufacturer's estimate regarding the average fluctuation in the unit value, which is to be expected for this product. If you, as an investor, have a shorter investment horizon, the risk is on average higher that at the time of redemption, the unit value of the product will be lower than when you invested. There are no redemption costs or fees. However, you may return the product in accordance with the procedures indicated in the Sales Prospectus. In order to protect the interests of unitholders, the Manufacturer may decide to temporarily and partially restrict the right of unitholders to redeem their units so that unitholders may redeem only a certain portion of their units. In order to protect the interests of the unitholders, the Manufacturer may decide to temporarily extend the usual notice period that unitholders must observe when making redemption requests for their units/shares to the Manufacturer. Further details can be found in the Sales Prospectus.
